

Photo story of
VMM Project at
Camp Marantha
in Idyllwild
California.

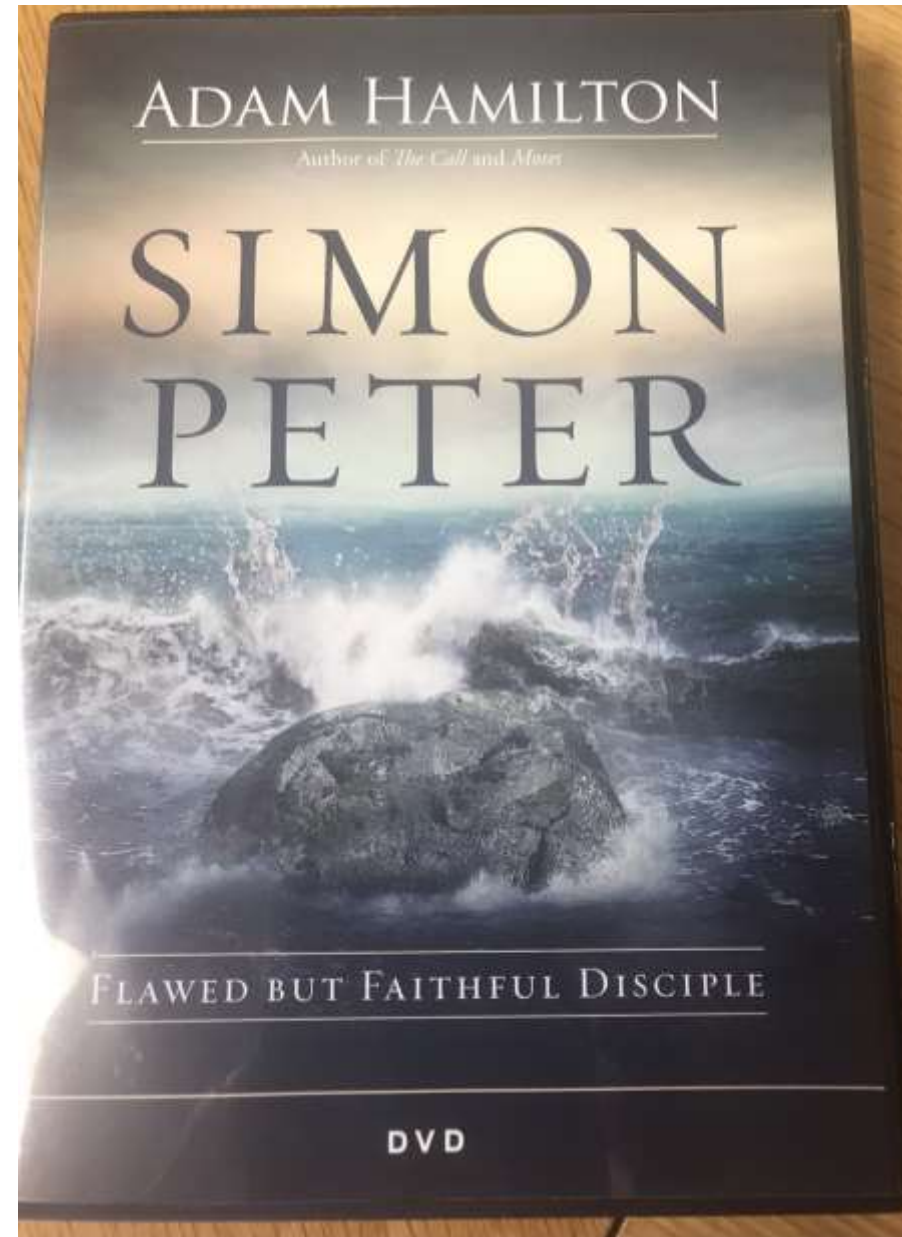

October 2019

For I know
the plans I
have for you,
declares the
LORD, plans
to prosper
you and not
to harm you,
plans to give
you hope and
a future.

JER 29:11

Starting our
work day with
Bible study
and prayer

Camp Director
Brian Reeves
and his wife
Katie

Tim Shirley ,
Maintenance Manager

Ashley Shirley,
Housekeeping Manager

**Proud Grandparents, Keith and Paula Shirley
Celebrating Noahs 5th birthday**

Pam , the office
manager, and
Jerry

VMMers on Project

David and Connie
Spear from Georgia

VMMers on Project
Art and Pat Aslesen
from California

First up project

- *Prep dining hall windows for new trim boards.*
- *Pat and Connie painted primer and brown paint on window sills*

Setup work area to
Cut trim boards

Trim boards get two coats of brown paint

Drilling jig clamped
in place for Kreg
pocket screws.

Glue corners before assembly

David preped
corners for
assembly

Predrill and
countersink holes
Concrete drill holes
for concrete screws
Caulk and paint

Tim and David
consulting the
facts

- South side
windows have a
metal covering the
window shade
which was made
part of trim design

End of the First Project

And the final look
with the new trim

Connie and Pat
washed and
cleaned the
windows for the
final touch.

Second Project to
paint cabin walls

Connie and Pat took
this task on. Yes
the cinder block
wall has soaks up
primer and
patience.

Cinder block has
lots of holes to fill

Connie is sponging
in primer for first
coat

Are you sure this is
the easiest way ?

The second coat of primer and then a coat of paint

Looks much better

Third project
replace office porch 4x4
with cedar poles

Wedged a 4x4 t o
support overhang

Drilled new holes
in concrete to
receive new post

Cedar tree posts
cleaned up, stained
,caulked and set in
place.

Mounted Mail Box

Fourth project
David and Art

Add Facia to dining
hall entrance.

Note the window
trim matches the
existing door trim

Trim existing wood

Measure and cut
new wood for fascia

Prep and paint new wood

Dave mounting a
new fascia board

Front facia
mounted under
metal roof flashing

end project 4

- Finished look of new fascia added to entrance

Last two Projects
Build two front doors
and paint interior of the
Chapel

Old wood doors

A plan was developed to purchase new wood and build a metal frame {with four hinges} from bed frames. old door in background

Bed frames began
repurpose to new
door frames.

Sure thankful that
Dave knew how to
weld. 100 Amps

Tim working right
alongside of us to
paint the welded
frames

Trial fit of welded
frame before wood
mounted

Doors are not the
Same width...

Wood run thru
planer and sloted
on table saw .

Woiod fitted into
frame.

Screw holes drilled
and chamfered in
frame for 3" deck
screws.

Door closer
attached to frame

Window frame cut

Dave finishes
window opening,
Door ready to
install and finalize

Meanwhile Connie
and Pat started
prepping the inside
chapel walls for
primer coats

Connie puts on first primer coat

What a contrast with darker wood

- Pat brushes primer in the wood paneling crevases and against blue taped trim

Dave reworking
door jam to match
four hinges

With both doors in place, the hardware ready to install, inside door stop wood cut to fit.

Window glass framing cut and stained ready for glass install.

Final window trim cut and glass mounted.

Time to clean up and put tools away.

End of Project composite picture
